Warrior Against New Revolution—Two Governments Still At Loggerheads

(By Associated Press)
Germany's two governments, the new one in Berlin and the old in Stuttgart, are still locked in a struggle for supremacy. While reports through Paris today reiterated that negotiations are in progress for a compromise, the Ebert government in Stuttgart is equally positive no compromise will be considered, apparently foreshadowing a determined contest for control.

Chancellor Kapp, backed by the troops which ousted Ebert, is sitting tight in Berlin but is feeling the effects of the general strike the strong weapon which the Socialists used to combat him, and promises immediate drastic measures.

Meanwhile Von Hindenburg mentioned as Kapp's choice for the German presidency, has eliminated himself, according to Hanover reports, asserting he disapproves of the Kapp revolution.

Lexington, Ky., March 16—Declaring in answer to questions about himself that he is a "dead man walking on earth," Claude Lykins, who was brought to the county jail here for safe keeping after it is alleged he killed his wife in Morgan county, would not discuss the crime of which he is charged.

Lykins asserts he has been dead for some time, but when he died of what cause or why he is permitted to remain on earth were questions to which he replied, "I don't know."

He talked much about the unknown tongue, which permitted him to hold conversations with departed spirits, but he was unable to tell what he meant by the "unknown tongue."

Lykins said he knew nothing about himself, not even how old he is, when he was born, what he was arrested for or whether he has ever been married.

The alleged murderer is about 25 years old and is of good appearance. He is said to have shot his wife to death with a shotgun about six months ago.

KENTUCKY WOMEN TO VOTE FOR PRESIDENT

Legislature Passes Suffrage Bill and Also Acts On New License Tax For Autos

Frankfort, Ky., March 16—The House measure to give Kentucky women suffrage in presidential elections passed the Senate Monday 30 to 3 and now lacks only the signature of Governor Morrow to become a law.

In advocating passage of the measure, of which Representative Lazarus was author, Senator Brock, Senate minority leader, said there was hardly a question that the right of suffrage would be realized by women through Federal amendment, but that Kentucky should go on record as favoring it immediately.

Under the bill women in Kentucky will be able to participate in the presidential election this year regardless of whether the Federal amendment is ratified in time.

Senators Burton, Carter and Gardner voted against it.

Principal work done in the Senate Monday was:

Tonnage tax on coal defeated.

Omnibus License Tax Bill, with many amendments, passed.

Measure to place 60 cents a horsepower tax on automobiles carries.

Substitutes for Lazarus Bill, for control by State Railroad Commission of telephone, telegraph, gas and express companies and steamboat lines, passed.

With a few minor amendments, the bill of Representative Roth, Louisville providing for a license tax of 60 cents a horsepower on passenger automobiles and about double the present tax on trucks, passed the Senate by a vote of 25 to 10.

Under the measure auto licenses are to be issued by County Clerks, who will receive as fees 30 cents a license. Those who voted against the bill were Senators Bright, Gardner, Hall, Harlan, Harris, Hon, Munn, Rives, Simmons and Smith.

Amendment that carries out the fee allowed County Clerks from 40 to 30 cents, eliminated that section that would have made necessary special permission before vehicles including contents, weighing more than six tons, could have used the highway, reduced the minimum age for chauffeurs from 18 to 16, and eliminated the requirement that light be kept burning on autos when parked on the highway.

The House acted on a lot of unimportant matters, but among the among the Senate bills passed were these; which now go to the governor:

Antie, authorizing consolidated school districts to issue bonds; Antie, providing for inspection of vocational schools; Bright, providing for independent consolidated and high school districts; Moss, increasing salaries of law clerks in Court of Appeals from \$100 to \$150 monthly; Antie, amending library commission law.

Bright, fixing qualification of graded school trustees; Moss, providing for furnishing acts and statutes to county officers, where court house has burned; Simmons, providing for annual assessment of real estate in second-class cities; Brock, providing for instruction in schools in humane treatment of animals; Miller, regulating reinvestment of funds in judicial sale of estate property.

Thief Got 38 Quarts In Winchester Home

Thieves entered the home of Judge F. H. Haggard, city attorney of Winchester, during his absence in the south, and stole from the attic a fine stock of "wet goods," estimated by some at 38 quarts, says the Winchester Democrat. Entrance from a back porch was effected through a broken window, the thief passing through the dining room, thus making his way to the attic. Blood on the window sill indicated that the thief was cut by the broken glass.

PREACHERS URGED TO ATTEND CONFERENCE

Dr. E. L. Powell, pastor of the First Christian Church at Louisville, and one of the best known ministers of the Disciples of Christ, has written a letter to the ministers of the denomination in Kentucky, urging them to attend the State Conference in the First church March 17, 18 and 19 and obtain first hand knowledge of the Inter-Church World Movement, under whose auspices the conference is called.

"I know of no people," says Dr. Powell, in his letter, "who can more conscientiously and enthusiastically enter into this movement than the Disciples of Christ. Critic or friend, come to this high place of vision and outlook in the great interests of the Kingdom."

Dr. Powell states that transportation expenses of all ministers who attend the conference will be paid and that the only expense to which they will be put while in the city is for their board and room.

PARIS POLICE NEED GAS MASKS

Paris, Ky., March 16—Wanted: One set of gas masks—Paris police force. Paris citizens were startled today to Chief of Police Link bringing up some distance in the rear of a drunken negro, carrying a bag.

The officer was shouting to the negro the itinerary to the jail and telling him "to keep moving."

When the procession reached the objective, Jailer Taul slammed the door in their faces, stuck his head out of an upstairs window and shouted: "Nothing doing!"

The chief then marched the negro to the city limits, ordering him to "move, and move fast and never come back."

The negro staggered away. Occasionally he opened the bag to fondle a pet animal.

Trying To "Gum It Up"

The plan to "gum it up" Dick Ernst into the republican nomination for U. S. Senator, probably won't be as easy to put over as many have thought. In addition to Gus Willson, who threw a monkey-wrench into the Ernst

candidacy in 1914, other republicans of prominence may get into the game. Judge Flem D. Sampson, one of the judges of the Kentucky Court of Appeals, was unanimously endorsed for the nomination for United States Senator from Kentucky at a mass meeting from Kentucky at a mass meeting. Then, there is Judge Burgess Bethurum and Dr. Ben L. Bruner, who may have to be reckoned with.

"SIX FEET FOUR" AN EXTRA-ORDINARY WELL-ACTED PICTURE

From any angle you look at it

"Six Feet Four", which is on the program of the local theatres today is a corking picture. It is the latest production of the American Film Company, Inc., and fully bears out the large promises that have been made for it during the six months it has been in the making.

Like many other plays about the Great Outdoors, "Six Feet Four" abounds in thrills—hard riding, fast shooting and hair-raising hold-ups. Where it stands alone in its class, however, is in the strength and power of its dashing, well-knit plot. So swiftly and skillfully are the various twists and turns of the story maneuvered, and so brisk and effective is the work of the star and his associates, that interest never lags for a single second. Ingenious incident leads smoothly to exciting climax, and there is interwoven a wealth of romantic and humorous detail to lighten the serious vein of the main story.

HEARD ABOUT TOWN

Dr. Claud Sandlin has been appointed by the U. S. Government as dental examiner for the soldiers and will have his office with his father, Dr. H. G. Sandlin on East Main street.

Miss Mary Neale Greene has accepted a position as bookkeeper with the Richmond Water and Light Co.

Miss Hardin, of Louisville, will be with the Greene Millinery Company this season.

Two weeks ago Mrs. Walter O. Park and daughter became ill. Mrs. Boothe went out to wait on them. They are recovering nicely, but Mrs. Boothe recently took the flu herself. They have a nurse to look after them, and it is hoped all will be well soon.

The Danville Messenger had the following about a woman well known here: Miss Minnie Razook, of Beirut, Syria, is with Miss Lizzie Shears for a few days. It is always a pleasure to her Danville friends to have Miss Razook come. Her sweet personality makes her beautiful goods seem far more beautiful than they would if shown by anyone else. Miss Razook is of a prominent family and intends visiting her mother in Jerusalem this coming summer.

Ansil D. Miller's paper, the Eustis, Fla., Lake Region said last week: Mr. and Mrs. Robert R. Burnam, Mr. and Mrs. R. C. Stockton, and Miss Lucy Burnam, of Richmond, Ky., will arrive in Eustis tomorrow night for a stay of several weeks. Mr. Burnam is cashier of the Madison National Bank of his home city and is one of Kentucky's most prominent and progressive men. Mr. Stockton is a prominent druggist and postmaster of Richmond, and both he and Mr. Burnam are prominent Masons, Mr. Stockton having been Grand Treasurer of Kentucky for years, while Mr. Burnam has filled all the offices in the Kentucky Grand Lodge from Master Mason to Knight Templar.

WHY COLDS ARE DANGEROUS

You are often told to "beware of a cold," but why? We will tell you: Every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases. People who contract pneumonia first take cold. The longer a cold hangs on, the greater the danger, especially from the germ diseases, as a cold prepares the system for the reception and development of the germs of consumption, diphtheria, scarlet fever and whooping cough. The quicker you get rid of your cold, the less the danger of contracting one of these diseases. Chamberlain's Cough Remedy has a great reputation as a cure for colds and can be depended upon. It is pleasant to take.

A NERVOUS WRECK

From Three Years' Suffering, Save Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today.

Mr. Oldham has been seriously ill with pleurisy for the past few weeks. In order to drain his lungs it was necessary to operate on him removing two ribs to insert the tubes. So serious was his condition that he could not take the anesthetic but was forced to stand the operation without it. While it entailed untold suffering he stood the operation well and considering the seriousness of his illness is getting along very well.

GREAT ROLE FOR STAR
So intense, so individual is the art of Pauline Frederick that it illuminates her every role with a fascination, an interest which would be given them by no other actress before the screen public.

To project the individual and not the type, is her purpose. The stereotyped formulas for emotion, the creed of conventional dramatic interpretation is her foe constantly. She studied each character assigned her as a new problem, a life from each other. To awaken the imagination of her following, to make them feel that they have never before seen Pauline Frederick as she is in the role being enacted before them on the screen at the moment, such is the purpose of this sublime actress. Can any showman doubt that an artist of such individuality is bound constantly to grow in popular favor?

It is just this individuality which Miss Frederick applies with startling effect in "The Paliser Case." To the role of Cassie Cara she has applied all the wealth of a rich imagination, her powerful intelligence, her search for truth.

The simplicity of the struggling singing student in this vehicle of human hearts and touching tragedy is portrayed with a pathetic wistfulness as haunting as the melodies of an inspired violinist. The little human touches and the great elemental passions of the victim of wealth and the woman of revenge are communicated with irresistible force from the hands the eyes, the lips, the every movement of this great artist. Like a haunted thing she appears at the end of this great drama, panting, struggling, reeling and pleading through the terrible moments of despair and suspicion to the last thrilling moment of vindication and love.
